Message from the President

On behalf of the First Nations Education Steering Committee, I am very pleased to present our Annual Report for 2001/2002. Once again, the past year has been a very exciting one for our organization. We have enjoyed the opportunity to build upon many of our successful programs, as well as take on many new challenges.

As always, FNESC's programs and services have been possible thanks to the tremendous support and participation of First Nations representatives from throughout British Columbia. Hundreds of people have come together through FNESC sponsored conferences and workshops to share their ideas, demonstrating an extremely widespread commitment to First Nations education. The remarkable growth of the First Nations Parents Club is also very exciting evidence of the great number of people who are working to help First Nations young people achieve educational success. The dedication shown by the people with whom we work is truly inspirational.

FNESC would also like to take this opportunity to acknowledge the contributions that have been made by our partner organizations. Through the positive relationships that now exist, this past year has included the approval of the first-ever Development Standard Term Certificate for Language Teaching, the announcement of \$60 million in new funding for special education programs in First Nations schools, and important steps in addressing the sensitive but crucial issue of racism. FNESC looks forward to continuing and broadening our very effective partnerships in the upcoming years.

Being involved with FNESC continues to be an extremely rewarding experience, and we would like to invite everyone interested to join us in our efforts to ensure that all First Nations learners are able to achieve their goals. I truly believe that by working together and combining our efforts in effective ways, we will continue to make great strides toward success for all students.

Deborah Jeffrey FNESC President

Message from the Executive Director

Once again, the past year has involved significant challenge and growth for FNESC, and has proven to be a very fulfilling time for us, as well. We have continued in our efforts to provide worthwhile programs and services to assist those working with First Nations learners in BC, and we are very excited by the great progress that has been achieved.

The FNESC staff has greatly enjoyed the opportunities we have had to meet and work with so many people who are committed to First Nations education. We continue to appreciate the leadership that has been shown by the FNESC Board and the Strategic Action Committee, and the input that has been provided by all of the FNESC sub-committee members. The encouragement provided by participants in FNESC meetings and projects is invaluable, and inspires us to take on new challenges with continued optimism.

I hope that this Annual Report provides a useful overview of our activities throughout the past year. As always, we welcome questions and feedback on our ongoing activities and the many exciting events and projects being planned; everyone is free to contact us at any time. As we now prepare for another year of activities, we look forward to continuing our many successful partnerships and working toward further improvements in the quality of education available to First Nations learners.

Christa Williams
FNESC Executive Director

About FNESC

The First Nations Education Steering Committee (FNESC) is committed to supporting First Nations in their efforts to promote quality education for First Nations learners. FNESC is directed by First Nations, and works at the provincial level to provide services in the areas of research, communications, information dissemination, and networking. FNESC works to collect and share up-to-date information about available programs, government policies and initiatives, and local, provincial and national education issues that effect First Nations learners in BC.

Currently, there are approximately 50 members of the FNESC Board of Directors (see Appendix One for a full list of Directors and their affiliations). Membership on FNESC is determined by First Nations, with each First Nation eligible to appoint one member to the Board. In July of 2001, the FNESC Board elected an Executive, which will serve for the next two years. That Executive includes the following individuals:

President Deborah Jeffrey Tsimshian Tribal Council

Vice President Kispiox Nation Jim Angus Metlakatla Treasurer Brenda Leighton

Nanoose First Nation Secretary Barbara Barltrop

A number of additional people participate in FNESC activities through its sub-committees. In 2001/2002, the FNESC sub-committees included those focusing on Aboriginal Languages, Special Education, and Adult Education. Further information about the work of those sub-committees is outlined in this report.

The staff of FNESC expanded significantly in 2001/2002. The staff now includes:

Christa Williams, Executive Director Barbara Kavanagh, Director of Research and First Nations Schools Kelly Kitchen, Acting Director of Special Education Derek Payne, Program Administrator Ethel Gardner, Project Manager Jan Haugen, Executive Assistant Jennifer White, Communications Officer April Smith, Finance Clerk Natasha Nahanee, Executive Secretary Stephanie Nahanee, Receptionist Roz Bodwell, Office Assistant Barbara O'Neill, Special Education Secretary

Sonia Woodman, Secretary

Karen Horner, Special Education Resource Line Coordinator

Promoting Information Sharing

Regional Sessions

At the center of its activities, each year FNESC organizes a series of regional sessions in First Nations communities throughout the province. Those regional sessions provide a foundation for all FNESC activities, as they allow FNESC to maintain accountability to the First Nations it serves, and to gather advice and direction for all FNESC initiatives. The regional sessions include an overview of all FNESC efforts, as well as an opportunity for First Nations representatives to respond to the work of the organization and share information about critical issues in their areas.

Conferences

FNESC also organizes a number of conferences in an effort to provide information sharing and networking opportunities. Four FNESC sponsored conferences took place in 2001/2002.

Annual Provincial Education Conference November 3, 4 and 5, 2001, Vancouver BC

Each year, one of the primary events facilitated by FNESC is an annual Provincial Aboriginal Education Conference, which is co-hosted with the BC Ministry of Education. For 2001, the provincial conference focused on the theme of Math and Science. That Conference was very successful, bringing together approximately 400 enthusiastic participants who enjoyed a range of entertaining and informative science and math demonstrations and workshops.

Second Annual First Nations Youth Conference August, 2001, Seabird Island, BC

A second conference organized by FNESC in 2001 was the Second Annual First Nations Youth Conference -- Empowering Youth Through Leadership. That event involved over 200 youth from throughout the province, who came to Seabird Island BC to participate in a number of sports clinics and workshops designed to promote self-esteem and goal setting.

Special Education Conference September 28 and 29, 2001, Vancouver, BC

Another very successful event took place in September 2001 – the Special Education Connections Conference: Strategies and Resources for First Nations. That conference, co-sponsored by FNESC and the First Nations Schools Association (FNSA),

shared information about a range of reading programs for consideration by First Nations school representatives. Over 200 people attended that Conference, and shared their experiences and ideas for enhancing the literacy rates of First Nations students.

Aboriginal Languages Conference February 22 and 23, 2002, Vancouver BC

FNESC also organized an Aboriginal Languages Conference for the first time in February, 2002. That event, one of the most successful ever organized by FNESC, included a range of speakers and workshops to share suggestions for language program planning and language teaching. The very positive feedback received following that Conference indicated that the information sharing was extremely valuable for those people working in the crucial area of language revitalization.

Other Information Sharing Activities

FNESC also undertakes a number of regular information sharing activities. In addition to dis-

tributing relevant information and updates as they arise, FNESC publishes a quarterly newsletter, Quality Education – A Right, as well as a new Aboriginal Languages Newsletter. Both of those newsletters are distributed to all BC Bands, Tribal Councils, First Nations schools, and other individuals who express an interest in receiving them. FNESC also maintains a web site at www.fnesc.bc.ca.

Working in Partnership to Promote Change

In undertaking all of its activities, FNESC strives to work in partnership with other education organizations whenever possible. By sharing resources and coordinating efforts, FNESC and its partners are able to provide programs and services as effectively as possible.

First Nations Schools Association

Among the most important partnerships of FNESC is its relationship with the First Nations Schools Association (FNSA). Since the establishment of the FNSA six years ago, the two organizations have implemented numerous activities together. For the past three years, the close working relationship has been formalized through an administrative agreement. According to that agreement, the FNESC staff provides administrative support to the FNSA Board for the implementation of the FNSA workplan.

Indian Studies Support Program

For the past three years, FNESC has also worked very closely with the Indian Studies Support Program (ISSP) Committee through a fee-for-service arrangement. FNESC staff provides support to the ISSP Committee, including such things as organizing committee meetings,

taking minutes, preparing correspondence, and facilitating the annual proposal call and review. The ISSP provides funding for First Nations controlled post-secondary programs.

Working With the Federal and Provincial Governments and Other Education Organizations

For the past several years, FNESC has been meeting regularly with representatives of the federal and provincial government in a tripartite process. Those meetings have resulted in a very effective sharing of information and ideas regarding ways to enhance the success of First Nations learners throughout British Columbia.

eacher Recruitment

In addition to the tripartite meetings, FNESC is also a founding member of the Education Partners Group. That group includes some of the most significant

stakeholders in the BC education system, including FNESC, the FNSA, the Department of Indian Affairs (DIA), the BC Ministry of Education, the BC Teachers' Federation, the BC College of Teachers, the BC School Trustees Association, the BC School

Superintendents Association, and the BC Principals

and Vice Principals Association. For the past two years, the Education Partners Group has focused on ways to implement a Memorandum of Understanding (MoU) that was signed in 1999. That MoU commits the Education Partners to "work within our respective organizations to improve school success for Aboriginal learners in British Columbia." Specifically, the Education Partners have begun their efforts with a focus on three issues: Aboriginal teacher recruitment, employment equity, and racism.

The Aboriginal Teacher Education Consortium

One of the main goals of the Education Partners is to increase the number of trained Aboriginal teachers in BC. In order to achieve proportionate representation of Aboriginal students and

Aboriginal teachers in the public education system, far greater numbers of Aboriginal teachers must be employed. In addition, there is

a high demand for Aboriginal teachers in the First Nations school system. Unfortunately, there are currently far too few Aboriginal teachers, or Aboriginal students enrolled in teacher education programs to meet the need that exists.

To address that situation, the Education Partners established the Aboriginal Teacher Education Consortium (ATEC), which involves a representative of each of the Education Partners groups, as well as representatives of Teacher Education Programs in BC. The ATEC has planned a number of activities, including: (1) the production of promotional materials to increase the interest of Aboriginal students in the teaching profession; (2) the enhancement and development of bridging programs to help interested Aboriginal candidates obtain the pre-requisites for teacher education programs; and (3) satellite teacher education programs organized in First Nations communities to improve access to the programs. The work of ATEC is now coordinated by a program manager, and it is expected that its initiatives will continue to grow in upcoming years.

The Anti-Racism Working Group

The Education Partners have also established an Anti-Racism Working Group, which is planning several activities to address the sensitive issue of racism. To begin its initiatives, the Working Group has focused on awareness raising, such as including articles in newsletters and publishing pamphlets and learning materials on relevant topics. In 2001/2002, FNESC also received funding from Canadian Heritage to hire a program coordinator, who will investigate and share information about relevant initiatives and ways to create positive partnerships between First Nations and public schools.

The Employment Equity Working Group

A sub-committee of the Education Partners is also working on an Employment Equity Handbook, to assist employers in designing and implementing policies to increase the number of Aboriginal people working in the public education system. The work of that sub-committee will continue into 2002/2003.

Gathering Strength Program

For the past several years, a great majority of FNESC activities have been encompassed within the Gathering Strength Program. Beginning five years ago, the Department of Indian Affairs (DIA) has provided funding for that program as one component of its response to the report of the Royal Commission on Aboriginal Peoples. FNESC and the FNSA have been responsible for administering the Gathering Strength funding available in BC.

The majority of funding provided through the Gathering Strength program has been distributed directly to First Nations schools and communities for locally-based activities. In 2001/2002, \$4 million was allocated to First Nations schools for projects related to school capacity building, stay-in-school, special education, curriculum development, literacy programming, and integration of services. An additional \$1.8 million was allocated to First Nations communities for education initiatives.

Gathering Strength funding was also used to sponsor a number of collective programs and initiatives, which are outlined below.

Annual Speaker's Series Workshops

Since 1999, Gathering Strength funding has been used to implement a Speaker's Series. That initiative includes the organization of approximately seventeen workshops in locations throughout BC. The workshops have focused on special education issues, community-wide programs to support young people, and board training. Parents, teachers, school board members, education workers, and community members have all participated in those workshops, and consistently have shared favourable feedback through workshop evaluation forms.

Special Education Toll-Free Resource Line

The 2001/2002 Gathering Strength Program also involved a continuation of the Special Education Toll-Free Resource Line -- an initiative aimed at connecting First Nations educators and parents with relevant information and support. Through the toll-fee telephone service, a special education teacher is available to answer questions and share professional development ideas, suggestions for special education materials, and information about relevant organizations and programs. The toll-free support line has been very effective, with an extremely positive response from people who have used the service, and an increasing use of the line by people throughout BC.

The First Nations Parents Club

2001/2002 represented the second year of the extremely successful First Nations Parents Club. That initiative involves the organization of locally-based Parents Clubs in First Nations communities, with support materials such as newsletters, incentive gifts, and parenting materials supplied by FNESC and the FNSA. To date, over 2000 parents have enrolled in over 90 community-based First Nations Parents Clubs. Some of the activities undertaken to date include the distribution of a First Nations Parents Handbook, a calendar designed specifically for First Nations parents highlighting tips and ideas for family educational activities, as well as Club vests and books

to support home-reading. In addition, a First Nations Parents Conference will take place on May 24 and 25, 2002 in Vancouver BC to offer members an opportunity to gather together to share ideas for supporting their children's education.

Language Curriculum Development Workshops

In 2001/2002, Gathering Strength funding was also used to sponsor four Language Curriculum Development Workshops. Those workshops provided information for First Nations representatives interested in undertaking the important task of developing curriculum for their language programs. The workshops shared information about how to become organized for curriculum development, and the steps and resources involved in the process. Those workshops received an extremely positive response from participants.

Gathering Strength Sponsored Research Projects and Materials Development

Board Training Manual

In 2001/2002, Gathering Strength funding was allocated for a research project focused on First Nations Board Training and the development of a manual for individuals serving on a range of First Nations Boards, including School Boards, Health Boards, Child Care Boards, and others.

Record Keeping Research

FNESC and the FNSA also sponsored a Record Keeping Research project, which considered the design of effective record keeping mechanisms, possibly computerized, within the context of issues such as privacy rights and freedom of information considerations.

Other Research Projects

In addition to projects sponsored through Gathering Strength funding, each year FNESC undertakes a number of other research projects. A full list of FNESC publications is included on the FNESC web site at www.fnesc.bc.ca. In 2001/2002, four projects were of specific focus, as described below.

Researching the Funding Available For First Nations Schools

In 2000, FNESC published a research report on the level of funding provided for the operation of First Nations schools. That publication, The Cost of Quality Education, demonstrates a significant discrepancy between the funding provided by DIA for First Nations schools and the funding provided for public schools through the BC Ministry of Education. In 2001/2002, that preliminary research was expanded, and FNESC and DIA cooperatively sponsored a much more detailed review of the federal and provincial funding formulas. The results of that work, which supports the earlier findings, will now be used as a foundation for discussions of possible adjustments to the band school funding formula.

Performance Standards Project

Throughout 2001/2002, FNESC, in partnership with DIA, also focused attention on the achievement of Aboriginal learners in the public school system through a Performance Standards Project. That project reflected an initial examination of possible measures of student performance that can be included in agreements between First Nations and School Districts, so that the results of programs and support activities can be effectively assessed on an ongoing basis.

Jurisdiction Project

For several years, FNESC has been involved in discussions with the federal and provincial governments regarding First Nations jurisdiction for education. In 2001, FNESC coordinated a number of regional meetings to gather input directly from First Nations regarding this important subject, and to determine whether

First Nations continue to support FNESC's efforts in this area. Those meeting showed that First Nations are striving to exercise greater authority in the area of education, through efforts to strengthen their school boards, develop their own education operations, establish First Nations controlled schools and post-secondary institutes, and increase their decision-making role in the public education system. In 2001/2002, FNESC participated in additional meetings with First Nations and federal and provincial government representatives to plan ways to move ahead in this important area.

Special Education Activities

For several years, special education has been an area of significant focus for FNESC and the FNSA. Given the critical shortage of special needs funding for First Nations schools, much of the FNESC and FNSA activities have been designed to bring attention to the need for additional special education resources. In 2001/2002, the FNESC efforts included participation with a national effort to prepare a comprehensive funding submission to the federal government. In December, 2001, the federal government responded to that work with a commitment of \$30 million in special education funding for each of the next two years.

In addition to the funding initiative, in 2001/2002 new support services were established to complement the Special Needs Toll-Free Support Line described above. An Acting Director of Special Education was hired to support First Nations in their special education planning. In addition, a special education teacher was hired to travel to First Nations schools to assist them in identifying the special needs of their students, and in planning programs and services to support them.

Aboriginal Language Sub-Committee Activities

The Aboriginal Languages Sub-Committee of FNESC has been very active throughout the past several years, striving to provide support to First Nations in the area of Aboriginal language program and planning implementation. In the past, the Sub-Committee created an Aboriginal Language Program Planning Handbook and accompanying Workbook. The Sub-Committee also worked with the BC College of Teachers to develop a framework for the Developmental Standard Term Certificate (DSTC). The DSTC will allow people interested in teaching their Aboriginal Language to attain post-secondary training that can be laddered into a Bachelor of Education. The first DSTC was formally approved in 2001/2002, and several other First Nations communities and post-secondary institutes are nearing the completion of a DSTC program outline.

The Aboriginal Languages Sub-Committee also planned a number of other initiatives for 2001/2002. The Sub-Committee began distributing an Aboriginal Languages Newsletter, to share information and updates more regularly. In addition, the Sub-Committee hosted the Aboriginal Languages Conference described earlier in this report. Future plans being considered include the possibility of organizing a tour of New Zealand to learn first-hand from the experiences of the Maori people, who have made tremendous strides in terms of language education and development.

Adult Education Update

There were also significant developments in terms of adult education in 2001/2002. For several years, FNESC included both a Post-Secondary Education and an Adult Secondary Education Sub-Committee, which were concerned with various aspects of adult education. In June 2001, the Indian Studies Support Program sponsored a Gathering of representatives of First Nations controlled post-secondary institutes and adult education programs for informa-

tion sharing and networking purposes. At that event, the participants highlighted the need for collective support from a provincial level organization, and they requested that FNESC facilitate its development. In response, FNESC amalgamated its post-secondary and adult secondary education sub-committees, and established an Adult Learning Sub-Committee. Since that time, several follow-up meetings have been held, and work has commenced to draft a Constitution and supporting documentation for a new, independent organization. It is expected that the new organization will be fully operational within the next year, and that it will be able to promote and enhance the important area of First Nations adult education.

Youth Program Administration

For the fifth year, in 2001/2002 FNESC and the FNSA continued to cooperatively manage four youth programs that are funded by DIA – the Summer Science and Technology Camp Initiative, the Summer Student Career Placement Program, the Youth Work Experience Program, and the Cooperative Education Program. Proposal information for those programs

spring, and final reports are requested upon completion of the projects. The youth programs continue to be very effective, providing excellent learning and growth opportunities for First Nations young people, and FNESC looks forward to supporting those programs in upcoming years.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

For The Year Ended March 31, 2002

The accompanying financial statements of the First Nations Education Steering Committee Society and all the information in this annual report are the responsibility of management and have been approved by the Board of Directors.

The financial statements have been prepared by management in accordance with Canadian generally accepted accounting principles. Financial statements are not precise since they include certain amounts based on estimates and judgements. When alternative accounting methods exist, management has chosen those it deems most appropriate in the circumstances, in order to ensure that the financial statements are presented fairly, in all material respects

The Society maintains systems of internal accounting and administrative controls of high quality, consistent with reasonable cost. Such systems are designed to provide reasonable assurance that the financial information is relevant, reliable and accurate and the Society's assets are appropriately accounted for and adequately safeguarded.

The Board is responsible for ensuring that management fulfills its responsibility for financial reporting and is ultimately responsible for reviewing and approving the financial statements.

The Directors review the Society's financial statements and recommends their approval. The Board meets periodically with management, as well as the external auditors, to discuss internal controls over the financial reporting issues, to satisfy themselves that each party is properly discharging their responsibilities, and to review the annual report, the financial statements and the external auditors' report. The Board takes this information into consideration when approving the financial statements for issuance to the Society. The Board also considers the engagement of the external auditors.

The financial statements have been audited by Reid Hurst Nagy, CGAs in accordance with Canadian generally accepted auditing standards on behalf of the members. Reid Hurst Nagy, CGAs have full access to the First Nations Education Steering Committee Society.

Executive Director

Treasurer, Board Of Directors

AUDITORS' REPORT

To: THE MEMBERS OF THE

FIRST NATIONS EDUCATION STEERING COMMITTEE SOCIETY

We have audited the statement of financial position of the First Nations Education Steering Committee Society as at March 31, 2002 and the statements of operations and changes in fund balances, cash flows and the notes thereto for the year then ended. These financial statements are the responsibility of the Society. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with Canadian generally accepted auditing standards. Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the management of the Society, as well as evaluating the overall financial statement presentation.

In our opinion, these financial statements present fairly, in all material respects, the financial position of the Society as at March 31, 2002 and the results of its operations for the year then ended in accordance with Canadian generally accepted accounting principles.

As required by the Societies Act of B.C., we report that, in our opinion, these principles have been applied on a basis consistent with that of the preceding year.

NOTES TO THE FINANCIAL STATEMENTS

For The Year Ended March 31, 2002

NOTE 1: SOCIETY, AIMS AND OBJECTIVES

The First Nations Education Steering Committee Society was incorporated on April 20, 1999 under the Society Act.

The purpose of the First Nations Education Steering Committee Society is to facilitate discussions about education matters affecting First Nations in British Columbia by disseminating information and soliciting input from First Nations. The First Nations Education Steering Committee Society will work to provide a forum for networking, communication and liaison among First Nations schools, other educational institutes, and the federal, provincial and other governments.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies used in the preparation of the financial statements:

a) Fund accounting

The First Nations Education Steering Committee Society records accounting transactions using the fund accounting method generally in use for non-profit organizations. A fund is determined for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations. Each fund has its own statement of operations which presents the results of operations for the fund. The financial position of the Society is shown on the statement of financial position which included the assets, liabilities and equity of all funds presented in the financial statements.

b) Capital assets

Capital assets, when acquired, are recorded as an expenditure in the related fund and are also reported on the balance sheet as capital assets and equity in the capital assets at cost. Amortization is charged to equity in capital assets at cost. Amortization is charged to equity in capital assets at the following annual rates:

Computer equipment 3 years
Equipment and furniture 5 years
Leasehold improvements 5 years

c)Budget figures

All budget figures were prepared by management and are unaudited.

NOTE 3: CAPITAL ASSETS

'Capital assets' is comprised of the following:

		ACCUMULATED /	2002	2001
	COST	AMORTIZATION	NET	NET
	\$	\$	\$	\$
