Modern times

Für uns Shrooms kommt mit den Vorbereitungen der August-Ausgabe bereits im Juli das Gefühl auf, der Sommer würde bereits zuende sein, obwohl er noch gar nicht begonnen hat. Mit der vorliegenden August/September-Ausgabe ziehen wir uns bereits warm an und schauen tief in die Indoor-Saison hinein. Warm anziehen müssen sich leider in diesem Sommer auch so einige Veranstalter, die aufgrund des Gästeschwundes und schlechtem Wetter erhebliche Verluste einstecken mussten. Und so ist bei manchen Festivals nicht klar, ob sie im nächsten Jahr wieder stattfinden werden. Da das mushroom magazine seit jeher immer ein Spiegelbild der Szene war, müssen wir uns auch auf die sich verändernde Situation einstellen. Neben zweimonatiger Erscheinungsweise und ab dieser Ausgabe wechselndem Seitenumfang mussten wir auch unser Vollzeit-Team verkleinern. In diesem Monat nehmen wir Abschied von unserem langjährigen Weggefährten Liese, der im vergangenen Jahr die Redaktionsleitung inne hatte. Liese wird uns weiterhin als Realitätsdesigner und spiritueller Berater zur Verfügung stehen, sich jedoch sonst beruflich umorientieren. Vielen Dank Liese für die langjährige, kreative, produktive, loyale und freundschaftliche Zusammenarbeit und alles Gute für Deine Zukunft!

Aber Trübsal blasen wäre jetzt fehl am Platz, denn nach dem mushroom day zum 14. Jahrestag des mushroom soll es schliesslich noch lange weiter gehen. Wir starten die Neuzeit in Zusammenarbeit mit verschiedenen Psytrance Labels und bauen das mushroom Abo nun zu einem wirklich multimedialem Ding aus. Neben einem Jahr mushroom magazine gibt es für 35 Euro nun ungläubliche 10 (!!!) CDs und ein Premium Download Account auf mushroom-online.com mit der Möglichkeit des Zugriffs auf unser Musik Download Archiv. Wir freuen uns auf Dich und sehen uns, wie immer, auf dem Dancefloor !

mushroom day @ Altonale pic: Udo Herzog

While working on the August issue, for us shrooms it almost seems as if the summer is already over, although it hasn't really started yet. So this August/ September issue is meant to keep us warm and dips deep into the indoor season. Freezing that's what many festival organisers may be, those who had to bear a loss due to the bad weather and fewer guests.

For this reason it is undear, if some of the open airs will take place next summer. Since the mushroom magazine has always mirrored the scene, we too had to adopt to the changing developments. Apart from bimonthly frequency, the number of pages will change with each issue from now on. We also had to downsize our fulltime-team, which means that we have to bid farewell to Liese, our companion of many years and head of the editorial team. Nevertheless, Liese will still accompany us as reality designer and spiritual mentor, but otherwise heave to new shores. Thanks a lot, Liese for your long-lasting, creative, active, loyal and amicable collaboration and all the best for your future! But instead of singing the Blues, we are having many more years to come in mind! Our start into the modern times includes cooperations with various psytrance labels and embellishes the mushroom subscription on a grand multimedia scale. For 35 euros yearly you receive the mushroom magazine, an awesome 10 (!!!) cds and a premium account on mushroom-online.com including access to our music download archive. We are looking forward to welcome you! See you, as always, on the dancefloor!

**Since Shpongles first album,
chill out music and culture have
gone a long way...In what do
you feel they have changed?**

I don't know if Chill out music and culture have changed, it depends where you are, who is playing, what kind of party it is. But I suppose it is true that there are more and more Chill out artists getting big-

ger and bigger. In fact, the first time we did Younger Brother, we did our gig at Brixton Academy in London, a very big venue. That was more of a show, a concert rather than a set in a chill-out room. I suppose fifteen years ago, people just wanted Trance and just wanted to dance to it. Now people are more opened to a bit of everything, as long as it is psychedelic and interesting. Of course it depends what you mean by Chill Out music; for instance, Brian Eno's music is very ambient and he does art installations as well. His work is far away from a psychedelic trance party.

**You've been travelling a lot,
what is your favourite crowd?**

I always love Japan, Japan is fantastic. I love the culture, the people, the parties, the food, everything about it really. They are so technically brilliant as well, the sound is always

good, the equipment is always great. Many artists will tell you the same thing, people love Japan.

**Your solo project: Hallucinogen.
Is there ever going to be another album?**

There will be another album. I am not consciously working towards an album, for the last few years my other projects have taken up my time, Shpongles and Younger Brother particularly. As an artist,

what I want is to challenge myself creatively and that has been the most exciting challenge for me, collaborating with people.

When I made the first two albums I was much younger and I was much more of a control freak and I did not necessarily want other people involved. I enjo-

you making music on my own, whereas now I enjoy the chemistry of working with someone else. I enjoy someone persuading me not to do what I would naturally do. However, after a few years doing that, now I swing the another way. Firstly because I feel there is a gap in the Trance market, all the Trance music that is coming out lately sounds very similar to me. I have only ever made music to excite myself and I think I am ready now to go back to Hallucinogen.

If you had to choose a movie to make a soundtrack to, what would it be?

My music is very visual so I guess a very visual kind of movie, the one that immediately springs to mind is Baraka. Maybe something with not so much plot to really explore the sonic and the visual soundscapes together. That would be pretty interesting to do. I would also like to make music for a proper movie, with a plot and everything, because it would be just a challenge to try, it would be different, something I have never done. For sure I would be interested in doing any movies.

What are your favourite synths and plugins?

I am a big fan of the 101, I use it in all my live sets. It is a great synth because it has a knob slide for every control and this is great. I can look at the 101 and instantly see what sound is going to come out, as long as it is in tune.

Is your music influenced by the dreams you have when you sleep?

A dream can really stay with you, it does affect daily things, of course. It affects your making music, but actually anything affects your making music. Your music will be affected

also if someone calls you on the telephone while you are working.

Dreams, real life and fear of death. Have you ever felt scared because you were in a powerful position that you could not control?

Every time you take LSD you feel that you have to "abandon" yourself to it. You don't know what is going to happen and you really have to give yourself up to the universe. As for facing death, I went to hospital last year to have my gallbladder removed. Before the doctors understood what those spots shown in the scan meant, I had to wait for hours in the hospital waiting room next to a guy who would not stop vomiting. My mind started thinking about all sorts of things...I am not afraid of death, but when you suddenly get confronted with your own mortality, it does make a change...I am not scared of dying because we don't know what happens when you die, but I don't want pain or a long suffering. This is what scares me.

Let's talk about life now. What are the three things you like best in life?

The first two have to be music and sex, for sure, and drugs...(laughs). I love food, I love wine, I love pleasure. Creating or hearing a really good tune gives me a lot of pleasure. I also like sleeping, I sleep a lot, as Bill Hincks said "I need at least eight hours of sleep a day and

also ten hours at night". Can I have pleasure as one of the things? So music and sex are pleasure. So, my three favourite things are pleasure, happiness and fun!

If you were reincarnated into someone or something, who would that be?

My life is pretty good, I would not mind living my life again but better! If I reincarnated into an animal it would be a bird, because birds have the flying thing, which is pretty cool. Or dolphins have the swimming in the ocean thing, so both of these animals I guess. If I reincarnated as a plant, it would be cannabis, because...I am so familiar with it! A lot of people get cremated in the end anyways...

Simon in Deutsch

Simon Posford ist wohl die schillerndste Persönlichkeit in unserer Szene, kein anderer Künstler genießt so viel Ansehen wie der verspongelte Engländer. Unter den Namen Gumbo, Hallucinogen und Walter Ego produziert er selbst und ist ebenfalls Mitglied in unzähligen Formationen von denen Spongole wohl die bekannteste ist. Seine letzte „neue“ Solo-Veröffentlichung war „Mi-Loony-Um!“ aus dem Jahre 2000 und seit dem hält sich hartnäckig das Gerücht, ein neues Hallucinogen Album könnte demnächst erscheinen.

Classical Trance patterns & recent sounds

In den letzten Jahren hat Trance eine intensive Entwicklung durchlaufen: Während es auf der einen Seite immer schneller und härter wurde, sind die Sets von so manchem Alternative Floor DJ nicht mehr von denen eines Techno Auflegers zu unterscheiden. Da ist es erfrischend zu sehen, dass es auch in der Mitte noch etwas gibt: Iono Music versorgt unsere Szene seit 2005 mit hochwertigen Releases, welche die altbewährten Trance Muster mit frischen Sounds verbinden.

Entstanden ist das Label als reines Leidenschaftsprojekt: Ohne auf aktuelle Trends zu schielen oder einem all zu großen Profilierungsdrang zu folgen gründeten der Berliner Matthias Sperlich und der Hamburger Olaf Mauer eine Plattform, um ihre ganz persönliche Vision von guter Trance Musik zu verfolgen. Dabei bauen sie zum einen auf den klassischen Progstyle, welcher einfach schon seit langem gut ankommt. Andererseits sind sie aber auch offen für alles Neue und möchten ihr Label in keiner speziellen Soundschublade wissen. Dass dieses Konzept ganz wunderbar funktioniert zeigt die stetig wachsende Popularität. Entsprechend die-

ser entspannten und doch sehr professionellen Herangehensweise ist denn auch das Verhältnis zu den internationalen Künstlern ein sehr persönliches. Und so darf man beim Blick in den Releaseplan auch weiterhin gespannt sein: Auf dem Programm stehen u.a. Alben von Progenitor, Mute, Fat Data und Temptation sowie der zweite Teil der erfolgreichen „Destinations“ Compilation Serie.

Trance music has been undergoing an intense development during the last years: While sounds are getting always faster and harder on the one hand, sets from alternative floor DJs can often not be distinguished from Techno artists. So its very refreshing to know that there still is something in the middle: Iono Music provides our scene with high-class releases since 2005, melting the classical Trance patterns with recent sounds.

The label was founded out of pure passion: Without peering at recent trends or following the pressure of profiling, Berlin based Matthias Sperlich and Olaf Mauer from Hamburg founded a platform to realize their very own vision of good Trance music. They concentrate on the well-tried progstyle on the one hand but are always open for new influences on the other. In the end they don't want their label to be classified as any particular sound genre. The ever growing popularity proves that this concept works out quite excellent. According to this very relaxed but also very professional and sophisticated label attitude they have a close and friendly relationship with their international artists. And so a view into the current release schedule is quite amazing too: This year there will be albums from Progenitor, Mute, Temptation, Fat Data and others as well as a new episode of the popular „Destinations“ compilation series.

Odiseo
„10 Years After“
(Blue Tunes Recordings)

Mexican Ulises Pascual a.k.a ODISEO is one of the exponents of progressive Trance. Since the beginning of the scene of Psytrance in Mexico city, Ulises was involved in a lot of successful projects like XIBALBA, SIZU YANTRA and SKI FI. He has now finished the superb Odiseo debut album „10 Years After“. This album has no doubt been one of the most expected releases in the progressive Trance scene and we can say. It was worth the wait.

E.V.P.
„Holographic Consciousness“
(Wildthings Records)

This album marks the 4th hour of released music by E.V.P. Performing in over 35 countries, most recently a number of tour dates to promote the album release: Japan, Italy, USA, USSR, Croatia and Brazil. Driving and groovy bass-lines with some highly psychedelic sounds and processing, some more serious sounds infused with some very entertaining samples and effects.

Zion Linguist
„Plugged In“
(Vision Records)

With his second album Zion Linguist takes the hugely popular South African sound that has been inflecting dancefloors worldwide and gives it a twist of his very own. Blending new ideas with old school favourites, Zion Linguist toys with the mind and the body as he challenges conventions and breaks musical boundaries. He throws out the old tried and trusted Trance formulas and introduces a mix of new madness to the routine, creating a hybrid sound of old and new all rolled into one massively powerful album! This is sure to be one to look out for this summer!

Kode Six
„Kold Fuzion“
(Vision Records)

This album features nine previously unreleased, original tracks from Kode Six and 2 remixes, including the NRS track ‚Delirium‘ and the Rabdom L's ‚Firebird‘. This is an introspective and emotional journey through the harsh Northwestern consciousness, a syndication of homegrown soundscapes with that of the established international community resulting in a corroborative effort to blur long set definitives.

Pan Papason „Come With Me“
(On The Move Music)

Get high, ready for a psychedelic yet emotional ride. This album will propel your emotions and activate your sixth sense. As you wake up in a field full of purple strawberries with nymphs dancing in white dresses and Sufis whirling backwards, you may admit that this music is taking you in places where you have NEVER been before. No formula has been used other than »Lets Dance« and trust me you will. Pounding yet soulful, stomping but still melodic, contemporary yet different, sentimental but full of drive.

Nico Psyart

Zwischen Traum und Realität, in der Schnittmenge dieser Welten liegt der Spielplatz von Nico, der in diesem Monat unser Cover gestaltet hat. Immer wieder bringt er von seinen Reisen die unwahrscheinlichsten Ideen mit und bereichert damit die Palette seines Schaffens. Er ist neugierig auf alles und vor allem Formen des Ausdrucks, welche er gekonnt vermischt. Er gestaltet Flyer, CD-Cover, Logos, Webseiten und vieles mehr und zeigt so ständig auch anderen seine Entwicklung. Auf seiner Webseite findet Ihr viele seiner Arbeiten, die Euch einladen auf eine lustige Reise die Grenzen überschreitet. Historische, geographische genau so wie auch spirituelle. „Between dream and reality“, in the small intersection of these

two worlds lies the playground which is explored by Nico, the creator of this issue's cover. From his travels, he is always returning with a suitcase full of technical and artistic expressions thereby increasing his already teeming graphics palette each time. Curious about everything, and above all modes of expres-

sions, his art offers our eyes and our minds free visits to his multiple universe. The eclecticism of its focus and its technical work earned him fame in Japan as well as Mexico, via Denmark and the USA. The diversity of its materials (flyers, CDs, logos, website, videos ...) allows everyone to access its multiverse which is constantly evolving. A beautiful invitation to a voyage disregarding geographic or historical or spiritual boundaries. (Marjorie)

Farbo

Farbo ist ein multimedialer Künstler aus Mexico und hat diesen Monat unseren Artist Sticker gestaltet. Er versteht seine Kunst als eine Reflektion der Schattens und Farben, welche entstehen, wenn ein Prisma die Muster der Wahrnehmung auflöst und man nur noch instinktiv handelt. Getrieben von einer erstaunlichen Disziplin sind seine Musik und Bilder eine konstante Weiterentwicklung in Stil und Technik. Das Spektrum seines Schaffens reicht dabei von herkömmlicher Kunst wie Bildern über Fotografie und Radierungen bis hin zu digitaler Bildbearbeitung.

Farbo is a multimedia artist from México and he designed this month's artist sticker. His artwork is a reflection of the shades and colors that he grasped when finding a prism that could distort the normal wave patterns of perception, developing an intuitive search of the form and sound. Sustained by an astonishing discipline, Farbo's music and visual artworks are a constant refinement of technique, using a well rooted pack of symbolism and abstract manifolds of psychedelia, constantly exploring new techniques in order to push the envelope of his creative process.

Farbo's visual techniques can range from traditional media like drawing, painting, photography and drypoint etching to digital media. (dlh)

Digital revolution 2.0

Zwei neue Controller bietet Vestax an, jeweils eine für den Dj und den Producer Bereich. Mit dem VCI-300 kommt das langersehnte Update für die auflebende Zunft. Ganz in Schwarz wurde nicht nur die Optik auf die mitgelieferte Software Serato Itchy abgestimmt, viele der beleuchteten Bedienelemente sind neu angeordnet und als Besonderheit hat das Gerät nun auch eine Soundkarte integriert. Das erspart viel zusätzliche Kabel und neben dem Notebook und dem Kopfhörer hat man sein komplettes Equipment damit immer selbst dabei ohne schwer tragen zu müssen. Für Produzenten schickt man den VCM-600 ins Rennen. Ein besonders auf Ableton Live ab Version 6 abgestimmtes Midi Steuergerät, wo im Gegensatz zu den Dj Geräten durch den Mischpultaufbau und

fehlende Jog Wheels ganz klar der Fokus auf die Bedienung von Sequenzern gelegt wurde. Im typischen Vestax Metall Gehäuse hat das Gerät auch beleuchtete Tasten und ist für Windows wie auch Mac geeignet.

Vestax offers two new controllers, one for the dj and another one for the producing section. Long awaited by the djing guild, the VCI-300 comes along in puristic black, harmonising with the provided Serato Itchy software. Many of the illuminated operating devices have been re-arranged and as a special gimmick the gadget includes an integrated sound card, avoiding too many additional cables. Besides from notebook

and headphones you now always have your own equipment with you without lugging too much. The producers can look forward to enjoying the VCM-600. Especially designed to harmonise with Ableton Live from version 6 on, this midi controller possesses no jog wheels and so clearly sets focus on sequencer handling. Furthermore, the typical Vestax metal box has illuminated keys and is compatible for Windows and Mac. (baq)

Stanton SC System

Stanton bringt mit dem SC System eine Controller/Mixer Lösung bestehend aus zwei Geräten, die man verschieden miteinander kombinieren kann. Der Mixer ist digital aber auch noch mit herkömmlichen Einspielgeräten nutzbar. Neben den üblichen Funktionen bietet er ein grosses Feld mit vielen frei belegbaren Tasten und einem Jog Wheel für zum Beispiel die Tracksuche im Rechner. Dazu kommt ein Controller in CD Bauweise mit einem aufliegendem Steuer-Vinyl auf einem rotierenden Teller, was sehr nah an das Schallplatten-feeling herankommt. Dazu runden ein Motorpitchfader sowie auch hier eine Menge frei belegbarer Tasten das stimmige Gesamtbild ab. Beide Geräte bauen auf der

Firewire Schnittstelle auf und können mit jeder midifähigen Software genutzt werden.

Stanton's SC System is a controller/mixer solution consisting of two consoles which can be combined in different ways. The mixer can either be used digitally or with conventional Dj hardware. Apart from the usual functions it offers many free allocatable

buttons and a jog wheel for track search on your computer. Additionally a controller in cd optics with a control vinyl set up on a rotation deck comes along, renders almost vinyl-feeling. Motorpitchfader and again free allocatable buttons round off the coherent overall picture. Both controllers are organized on the firewire interface and can be used with any midi compatible software. Indian Spirit

The 10th anniversary with lots of specials

04-08 September / Heiligengrabe between Hamburg and Berlin (Germany)

Es begann alles im schönen 1999er-Sommer mit der Idee ein Festival zu schaffen, welches am Ende der warmen Jahreszeit noch einmal die Tanzakteure aller Stämme vereinigen sollte. Das Konzept der Indian Spirit ging auf und mit den Jahren wuchs es zum wirklich definitiven Sommerabschluss-Event der Psytrance-Szene heran, welches jährlich am ersten Septemberwochenende stattfindet.

In diesem Jahr werden Dich über 20 internationale Live-Acts und etwa 30 DJs mit ihren Psychedelic-, Progressive-, und Chill-Sounds inmitten eines reichlich dekorierten Festival-

spaces umgeben von Tipis, Licht- und Feuerperformances in Trance versetzen.

Zum zehnjährigen Jubiläum hat das World Wide Tribe Team um Stammesführer DJ Synchron aber noch weitere Kräfte mobilisiert und möchte ein unvergessliches Festival mit vielen interessanten Extras zaubern.

So bekommt der Mainfloor ein Upgrade in Form einer 8 Punkt PA sowie eine 80 KW Laseranlage spendiert, die ihre scharfe Lichtstrahlen aus 10 Rohren schiesst.

Der Chill Out soll eine Art Irrgarten werden, der in seinen dunklen verschlungenen Pfaden einige Überraschungen bereit hält.

Neu auf der Indian Spirit werden auch einige interaktive psychedelische Installationen sein, deren Aufgabe es sein soll spielerisch die Wirklichkeit zu verzerren. So hast Du die Möglichkeit Dich in der Infrarotkammerprojektion selber in einem anderen Licht zu betrachten, der gigantische Hologrammwürfel soll Deine Augen täuschen und das Wasser Wunderland schickt Dich auf eine Reise durch das nasse Element.

Weitere Elemente der psychedelischen Freizeitgestaltung gefällig? Das Kinzelt lädt Dich ein während Deines Partygrundfilms noch weitere Filme zu schauen. Das ist sozusagen doppelter Spaß!

Für sportliche Partycrews wird sicherlich das Volleyballturnier von großem Interesse sein, denn die Gewinnermannschaft erhält den kompletten Festivaleintritt zurückgezahlt. Anmeldungen für die 6er Teams des Psy Volleyball nimmt raman@sn-city.de entgegen. Wer sich auf dem Festival noch handwerklich-visionär fortbilden

möchte, der kann einen der Workshops besuchen. Das genaue Programm kannst Du direkt auf dem Festival erfahren.

Bei wunderbarem Wetter lädt der nahegelegene Badensee zum chillen ein. Ein Shuttle fährt hier Samstag bis Sonntag ununterbrochen von 8 bis 21 Uhr zum Selbstkostenpreis.

Erwähnt sein soll auch noch der neue Bahnhof im 5km entfernten Heiligengrabe, der es für Bahnfahrer nun wesentlich einfacher macht zum Sommerabschlussfest zu gelangen. Es geht aber auch mit dem Psy-Shuttle von Psyrock.de, der über 100 Haltestellen in Deutschland anfährt, denn vernünftige Indianer lassen Ihr Pferd im Stall...

Die Campingarea öffnet am Donnerstag und am darauf folgenden Mittwoch muss dann auch das letzte Zelt eingepackt werden und der letzte Wohnwagen vom Platz rollen.

It all started in the beautiful summer of 1999 with the idea of an end-of-summer-gathering to unite all dancers of the tribes before the dark season is taking over. This concept bore fruits and over the years developed into the definite sommer-closing event as which the Indian Spirit is now known in the

Psytrance scene, taking place on the first September weekend.

This year over 20 international live acts and about 30 DJs with a broad range of psychedelic, progressive and chill sounds will beam you into space amidst an opulently decorated festival space surrounded by teepees, light and fire performances.

Celebrating its 10th anniversary, the World Wide Tribe team around tribal leader DJ Synchron has stirred more power into action and invites you to experience an unforgettable festival with many extra features. So the main floor will be upgraded with a 8-point PA system and a 80 KW laser shooting its hot light beams out of 10 tubes.

The chill-out is built as a labyrinth providing thrilling surprises in its dark intertwined paths. Another novelty at the Indian Spirit are the interactive psychedelic installations that playfully deform reality. Watch yourself through infra-red cameras in a different spotlight, let your eyes be fooled by a gigantic hologram cube and ride a fascinating trip through the water wonderland.

Curious about some more nibbles of psychedelic leisure activities? Maximise your party film with watching a movie in the cinema tent.

That's double fun, after all! :)

Or get your party crew into doing some real sports and take part in the Psy volleyball tournament. The winning team will be rewarded with their complete festival entry fee! Register your 6-fraggle-team here: raman@sn-city.de.

Willing to improve your technical and visionary abilities? Then have a look at the workshop schedule.

A beautiful lake close to the festival area invites you to cool down and chill out. A shuttle service has been arranged from Saturday 8 a.m. until Sunday 9 p.m. for just a few euros.

Last but not least the new train station in Heiligengrabe, just five kilometers away, should be mentioned making it a lot easier for all train travellers. Sensible Indians leave their horse in the barn and take advantage of the psyrock.de psychuttle starting at more than 100 stops in Germany.

The camping area will be open from Thursday till Wednesday, when definitely the last tent has to be wrapped up as well as the last caravan to be driven off. (mat/wwt/luna)

RAINBOW SERPENT

The rainbow snake from Downunder

Schon mal in den Fängen der australischen Regenbogenschlange gewesen? Nein? Dann öffne mal Deinen Kalender, streiche den 25-28.01. 2009 an und schau im Atlas nach Beaufort, Australien. Hier findet das Rainbow Serpent OA statt, Down Unders größtes »outdoor music and arts festival«.

Was klein begann, hat längst Kultstatus bei den über 7.000 Besuchern.

Über 100 Künstler aus den Genren Psytrance, Electro, Dub, Ambient, Break, House sowie zahlreiche Workshops, Symposien, die Healing Area, Verkaufsstände und fantastische Deko verwandeln das Gelände in einen magischen Ort, der sich geradezu anbietet für einen Urlaub fernab des Alltags.

Der Name des Festivals stammt aus der Mythologie der Aborigines. Die Regenbogenschlange steht für die Ressourcen der Welt. Dem zollen die Organisatoren mit einem umfassenden Umweltschutzplan Tribut: 2007 war das Festival zum ersten Mal CO2-neutral; Besucher können mit einem kleinen

Extrabeitrag etwas in die grüne Kasse einzahlen und für jeden Gast wird ein Bäumchen gepflanzt, um nur einige Punkte zu nennen. Scheint, als hätte die Regenbogenschlange auch Dich soeben gepackt... ;-)

Wir sehen uns dann also ganz bald unter der australischen Sonne!

Ever been entangled by the Australian rainbow snake? No? Then you should open your calendar, mark January 25-28th of 2009, get out your world map and search for Beaufort, Australia. Here, Down Under's biggest outdoor alternative lifestyle, music and arts festival will take place, gathering more than 7000 people.

No longer just an electronic music festival, these days you can experience a unique combination of music, performance, spiritual education, dance, discussion, relaxation, art and healing. Over 100 artists across a multitude of music genres, including Progressive Trance, Electro, House, Breaks, Dub

and Ambient; symposiums, workshops and market stalls create a truly magical experience. A chance to escape from day to day pressures and connect with like minded people in a truly inspiring environment.

It's name, Rainbow Serpent, derives from the Aborigine mythology. In the Dreamtime Stories it is closely linked to land, water, life, social relationships and fertility.

The festival organisers pay tribute to this important aspect with an extraordinary environmental commitment. Last year, the festival was carbon-neutral for the first time, visitors can buy a green fee to cover their carbon footprint, and a tree is planted for each visitor, just to name a few issues of their green program.

Seems to me that by now you are already entangled by the rainbow snake! ;) Well, c ya under the Australian sun in just a bit of a time! (Luna)
